THE SIGNIFICANCE OF THE CBN'S FIRST MPC OF 2024

Join Ayodeji Dawodu, Director of CEMEEA Fixed Income at BancTrust & Co., and Tellimer's Senior Economist, Patrick Curran, for an exclusive webinar ahead of the Central Bank of Nigeria's first Monetary Policy Committee meeting of the year on 26-27 February.

The crucial and eagerly anticipated meeting will be the first under Governor Olayemi Cardoso and the Tinubu administration with stakeholders expecting clarity on interest rates and foreign exchange policies given concerns on capacity, consistency, direction, and independence.

This will be followed by a brief Q&A session with Patrick and Ayodeji.
